Brief Introduction of SAWS

State Administration of Work Safety

The State Administration of Work Safety (SAWS) is an agency directly under the State Council for overall supervision and regulation of work safety and it is also the working body of the Office of the State Council Work Safety Commission.

As prescribed by the State Council, the State Administration of Work Safety administers the State Administration of Coal Mine Safety and directs the overall supervision of coalmine safety.

Organize general safety inspections & specialized supervision activities, screen & control major hazards

Inspect occupation health at workplaces

Organize and coordinate rescue operations when a major accident occurs

investigate and handle major accidents and violations

Conduct statistics, release information

Encourage research of and promote safety science & technology

International exchanges & cooperation

Major Events

- ❖ China International Forum on Work Safety
- ❖ China International Occupational Safety & Health Exhibition
- ❖ China International Forum on Workplace Emergency Management
- ❖ Emergency Rescue Technology & Equipment Exhibition
- ❖ The 5th International Mine Rescue Competition

China International Forum on Work Safety

China International Forum on Work Safety is held every two years, which is co-hosted by State Administration of Work Safety and ILO. Since 2002, it has been already held 4 times and obtained great success. More than 500 delegates and over 70 speakers all over the world attended the conference every time, it becomes one of the largest events in the field of work safety in Asia even in the world. Next year, in 2010, the 5th China International Forum on Work Safety will be held in Beijing in September. All the experts and staff working in work safety are welcome to join us.

China International Occupational Safety & Health Exhibition

China International Occupational Safety & Health Exhibition is a concurrent event along with China International Forum on Work Safety. The exhibition space is more than 13000 square meters and every time more than 200 booths both from in and abroad are involved in. The exhibition profile covers PPE, mine safety equipment, breathing apparatus, gas detector, etc. It is one of the most important exhibitions in the field of OSH.

第四届中国国际安全生产及职业健康展览会
The 4th China International Occupational Safety & Health Exhibition

China International Forum on Workplace Emergency Management

To enhance exchanges and cooperation with the relevant countries, regions and international organizations, in 2007 and 2009, the 1st and 2nd China International Forum on Workplace Emergency Management were successfully hosted by State Administration of Work Safety, which obtained fruitful result. The 3rd China International Forum on Workplace Emergency Management will be held in Beijing in September 2011.

China International Emergency Rescue Technology & Equipment Exhibition

China International Emergency Rescue Technology & Equipment Exhibition is held along with the Forum, with 4000 square meters space and over 130 booths. The exhibition profile covers Information System, Dispatching Facilities and Techniques in Emergency Preparedness System ,Emergency Rescue Equipment and Technology , Monitoring and Controlling Facilities and Technologies, PPE, etc.

The 5th International Mine Rescue Competition

On September 16-18, 2006, the 5th International Mine Rescue Competition was held in Pingdingshan of Henan Province, China. For the items of mine rescue simulation, medical first aid, and apparatus operation, Team of Pingdingshan Coal Mine Group and Team of Yankuang Group from China separately won First Prize of Mine Rescue Simulation and Operation of BIOPAK-240.

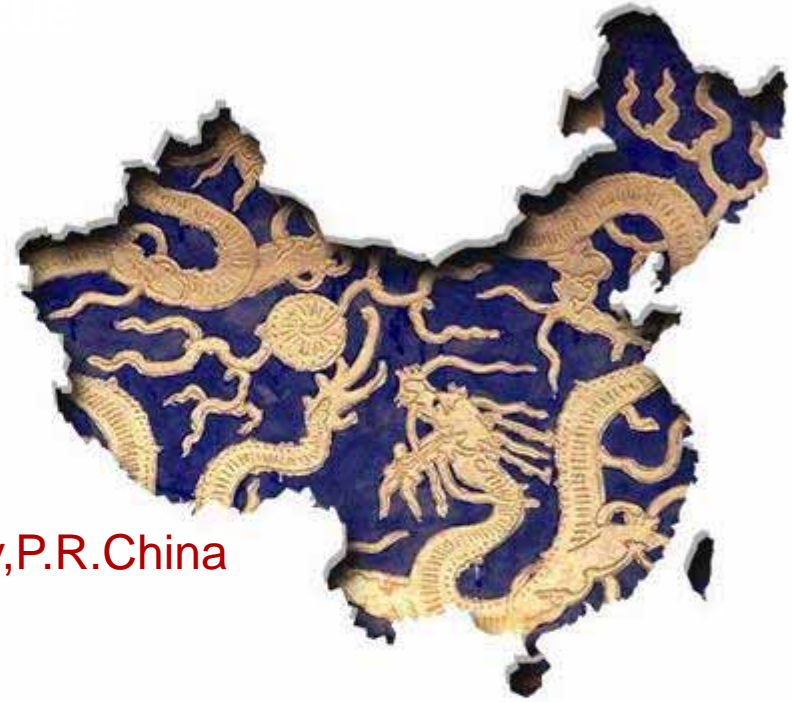

The 5th International Mines Rescue Conference

Information

Date: September 2011

Venue: Beijing China

Host: State Administration of Work Safety, P.R.China

Organizers:

National Workplace Emergency Management Center

State Mine Rescue Command Center, SAWS

National Center for International Exchange & Cooperation on Work Safety, SAWS

In Collaborated With: Kailuan Group

Welcome Message

International Mines Rescue Conference is one of the most important events in the field of international mine rescue, which obtains great supports from the main mining countries in the world. As a big mining country, it is a good opportunity for China to hold the 5th International Mines Rescue Conference.

It aims to bring together the wisdom of the elites and experts worldwide in search of good solutions to mine rescue, which may help avoid occurrence of accidents and disasters and minimize loss of lives and property. It also aims to explore theories, share experiences, exchange techniques and promote cooperation, so as to improve the capacity in mine rescue and protect the safety and health of the people.

Look forward to meeting you in Beijing in 2011!

E-mail: imrc2011@yahoo.cn

Kailuan Group

Kailuan is a large coal mine group located in Hebei Province in China, which has a history over 130 years. There are 15 coal mines and 7 preparation plants so far. The annual coal production is above 35 million tons.

Participation of Previous International Mines Rescue Conferences

China has attended all the previous International Mines Rescue Conferences, and applied for the host of the 5th conference on the 1st International Mines Rescue Conference held in South Africa. We would like to take this chance to provide you a platform for exchange and cooperation on mine rescue and make you know more about mine rescue in China.

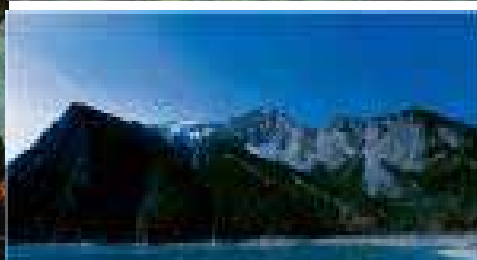

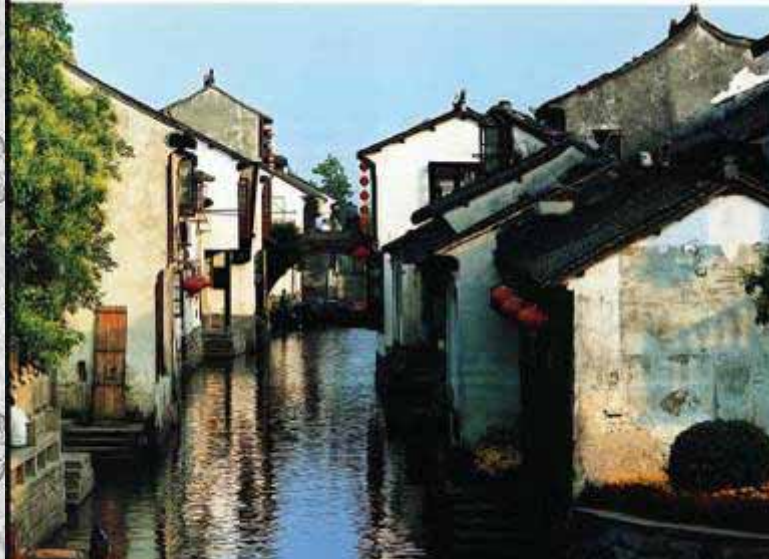

Living in Beijing

Beijing is the Capital of China with a history over 3000 years. It is a famous historical cultural city in the world and one of the greatest ancient cities in China. There are both ancient and modern architectures in Beijing. The cultural integration makes Beijing more lively and charming. The most important event we held in recent years was Olympic Games, which took place last year. It attracted more people over the world visiting Beijing and I believe it would be an unforgettable memory in their lives. It is also very famous for its food in Beijing, which is definitely worth to have a try.

Come to Beijing, experience more.

Thank you!

Look forward to meeting you in Beijing in 2011!
